

## **Regulation “Enrico Magenes” international Prize**

### **Foreword**

To honor the memory of Enrico Magenes and to support the development of mathematical knowledge in the research fields he held dear

the “Felice Casolari” Mathematics Department of the Pavia University

the “Enrico Magenes” IMATI-CNR Applied Mathematics and Information Technology Institute

the MOX Models and Scientific Calculation Laboratory of the Politecnico of Milan

Enrico Magenes’ students, colleagues, friends

in agreement with the Mathematics Italian Union (UMI)

set up a fund at Mathematics Italian Union (UMI) to create the Enrico Magenes Prize. These institutions hope for the increase of the Prize over the coming years, within the available resources, in order to ensure its four-year assignment in accordance with the modalities described in the following regulation.

In addition to the contribution of the promoters, the award fund budget can be increased through further sponsorships from individuals or institutions that wish to support this initiative. At each assignment the amount of the prize will be established by the fund budget in order to ensure, if possible, that the award will remain constant over time.

### Article 1

Starting from 2015 and every four years UMI shall assign through competition, in connection with its Meeting, the “Enrico Magenes” Prize. The Prize shall be awarded to a mathematician who provided relevant contributions in the field of theoretical or numerical Analysis of the differential models and their application and whose 46th birthday does not occur by 31st December of the year in which the prize is awarded.

### Article 2

The prize is awarded by a panel consisting in 5 members appointed by UMI Scientific Commission, taking into account any proposals by funding Bodies. At least one of the members must work in a non-Italian institution. He/she shall also be a non-Italian citizen.

### Article 3

The Commission shall award the prize considering the whole scientific production of the applicant. The Commission shall take account of nominations submitted by UMI members, Universities, Research institutes and Scientific Academies. The prize could be awarded also to a person who did not submit application form or who has not been nominated as described in the previous paragraph. Commission resolutions are unquestionable.

### Article 4

The call announcement will be advertised both in Italian and English on ‘Notiziario’ and on UMI website within the 31th December, as to ensure maximum dissemination of it and to exhort candidates nominations pursuant to article 3.

The expiry day for the submission of the applications and for the candidates nominations under article 3 will be at least 60 days after the date of the call announcement.

#### Article 5

The application forms and the proper motivated nominations by UMI members, Universities, Research Centers and Scientific Academies must be sent to the UMI President exclusively by electronic means. To the applications and nomination submissions shall be attached in PDF format the curriculum vitae and a list of publications of the candidate.

#### Article 6

The Prize will be awarded during the opening ceremony of the UMI Meeting and it will be advertised on UMI website, where the name of the winner and those of the Commission members will be published. On these media will be published also the reason of the prize's award. The winner undertakes to held a conference in Pavia within the Colloquium Magenes.

#### Article 7

The methods for awarding prizes may be amended in any time by UMI Presidency Office on a proposal of the UMI Scientific Commission with the prior consent of the promoting bodies.
