The Lecture Notes of the Unione Matematica Italiana (UMI LN) is published by Springer on behalf of the Unione Matematica Italiana (UMI). The editorial board includes distinguished representatives of the Italian mathematical community, and equally many members from across the world, together spanning the breadth of current mathematical research.

The volumes of the UMI LN series are lecture notes in the spirit of the established Lecture Notes in Mathematics (LNM) series of Springer, with an analogous editorial policy.

TITLES IN THIS SERIES: <http://www.springer.com/series/7172?detailsPage=titles>

- *An Interduction to Navier-Stokes Equation and Oceanography*, L.Tartar, 2006
- *Topics on Concentration Phenomena and Problems with Multiple Scales*, A.Braides, V.Chiadò Piat (eds), 2006
- *An Introduction to Sobolev Space and Interpolation Spaces*, L. Tartar, 2007
- *Mean Oscillations and Equimeasurable Rearrangements of Functions*, A. Korenovskii Anatolii, 2007
- *Transport Equations and Multi-D Hyperbolic*, L. Ambrosio, G. Crippa, C. De Lellis, F. Otto, M Westdickenberg, F. Ancona (et all.) (Eds), 2008
- *From Hyperbolic Systems to Kinetic Theory*, L. Tartar, 2008
- *Zeta Function over Zeros of Zeta Functions*, A. Voros, 2010
- *The General Theory of Homogenization*, L. Tartar, 2010
- *Hilbert Functions of Filtered Modules*, M.E. Rossi, G. Valla, 2010
- *Hyperfinite Dirichlet Forms and Stochastic Processes*, S. Albeverio, R. Fan, F. Herzberg, 2011
- *Convolution Operators on Groups*, A. Derighetti, 2011
- *Harmonic Functions and Potentials on Finite or Infinite Networks*, V. Anandam, 2011
- *Phase Change in Mechanics*, M. Frémond, 2012
- *Factoring Ideals in Integral Domains*, M. Fontana, E. Houston e T. G. Lucas, 2013
- *Homological Mirror Symmetry and Tropical Geometry*, R.Castano-Bernard (et al.) Eds, 2014
- *Elementary Symplectic Topology and Mechanics*, F.Cardin, 2015
- *Evoluzion Equations of von Karman Type*, P.Cherrier, A.J.Milani, 2015
