

SEMINAR of the Italian Mathematical Union (UMI)

Fraudulent Publishing Practices in Mathematics: analysis of the phenomenon and recommendations for the community April 29, 2026

Organized by UMI – Research Observatory: E. Francomano, V. Simoncini, M. Vallarino

ore 14:30

Marco Andreatta, University of Trento

President of the Italian Mathematical Union (UMI)

Introduction

ore 14:40

Wil Schilders, Eindhoven University of Technology (Netherlands)

President of the International Council for Industrial
and Applied Mathematics (ICIAM)

Fraudulent Publishing in the Mathematical Sciences

ore 15:05

Alessandra Celletti, University of Rome Tor Vergata

Vice-President of the National Agency for the Evaluation
of Universities and Research (ANVUR)

The Italian research evaluation and the international context

ore 15:30

Domingo Docampo, Universidade de Vigo (Spain)

*The Signal and the Noise: Separating Genuine Mathematical Influence from
Artificially Inflated Metrics. Restoring trust in Mathematics Research Evaluation*

ore 15:55

Discussion

ore 16:25

Elisa Francomano, University of Palermo

UMI-Research Observatory Coordinator

Closing remarks
